

MediaJet® Pearl 260 Smooth Lustre Duo

DOUBLE-SIDED PORTRAIT PHOTOPAPER, 260,00g/m²

AT A GLANCE

- double side printable PE photo paper
- microporous inkjet coating
- fast drying
- special lustre surface
- very consistent layflat
- excellent portrait quality
- large colour gamut and image sharpness
- printable with pigment and dye inks

SPECIFIC FEATURE:

The universally deployable photo paper with professional "lustre" surface, can be printed on both sides and is characterised by its immediate smear-resistant drying properties and outstanding water resistance. Pictures are reproduced in an almost true-colour, photo-realistic way, full of life and rich in details. MediaJet® Pearl 260 Smooth Lustre Duo is a high-quality photo paper for universal deployment on all standard LFP inkjet plotters that use both dye or pigmented inks. This paper range has the natural white colour tone of a real photo paper, with excellent colour spectrum and optimum reproduction of skin tones while maintaining a richness of detail and sharp contours. It has an extremely wide colour scope and excellent flatness qualities. MediaJet® Pearl 260 Smooth Lustre Duo is an inkjet paper that satisfies the highest demands.

PROCESSING:

For optimum printing results, MediaJet® Pearl 260 Smooth Lustre Duo must be calibrated beforehand on the used printers and with the appropriate ink. Without calibration color modifications can occur. Processing and storage of MediaJet® Pearl 260 Smooth Lustre Duo should take place in a climate from 35 to 65% relative humidity and at a temperature from 10-30°C. It should be stored cool, dry, clean, and dustfree in its original packaging. Wear cotton gloves and handle carefully as surface is susceptible to abrasion and/or fingermarks.

TECHNICAL SPECIFICATION:

Application Area:	Nur Im Innenbereich	Surface:	Lustre
Material:	Papier	Thickness:	245,00µm
Specific gravity:	260,00g/m ²	Cold lamination:	ja
B1-cert.:	nein	Heat lamination:	ja
can be sewn:	nein	water resistant:	nein
can be eyeletted:	nein	scratch resistant:	nein
can be stretched:	nein	Opacity:	
Color L:	93,3 +/- 0,5	Specular gloss:	
Color a:	-0,3 +/- 0,3	Whiteness (R457):	130 (D65 / 10°)
Color b:	-1,4 +/- 0,8
